

PHA recently organized a fascinating session on "How To Achieve Greater Yields in Food Production To Reduce Food Wastage". We were honored to host some of the industry's most prominent chefs, including Professor Peter Jones, Steve Munkley, John Crockett, and Rahul Akerkar, who shared their expertise and insights on this important topic. The seminar provided valuable knowledge to F&B professionals, Executive Chefs, Sous Chefs, HoD, Operation Heads, Owners, and more on effectively using inventory and reducing food waste. The attendance and learning made the event a huge success!
